TEAM WORK WILL DO THE JOB

Team work has won victories from time immemorial—for families, towns, cities, states and nations. Team work is the highest form and most democratic example of cooperation. Without team work, America and Americans would never have achieved the greatness that is theirs. We are all aware of its power and appeal. It is no less needed now than in the past.

Team work among those who live, and work and create in and near the woodlands, is vital. There never was a time when our woodlands, as a whole, were in such precarious condition as they are now.

Since the hurricane, nearly 900,000 acres of slash have been added to our already sizeable slash problem. If we are to avoid unnecessary trouble with fire in our woodland areas every one must cooperate—we must have team work. The remedy is simple—

YOU and YOU and YOU and YOU

Must secure the required permit from your local forest fire warden before burning.

Must use necessary precautions while burning or smoking in or near woodlands.

Must not throw lighted cigar, cigarettes and matches from vehicles moving along highways.

Otherwise YOU might well contribute to a costly and damaging fire. And don't forget that fire might destroy your own property.

REMEMBER—Only YOU and YOU and YOU can prevent fire!

TEAM WORK WILL DO THE JOB!

Number of local fires, 12

Number of acres burned, 50½

Number of permits issued, 12

REPORT OF SUPERINTENDENT

To the Pelham School Board:

In submitting my fourth annual report on the condition of your school it is a real pleasure to be able to report that the past year has been marked by continued cooperation from local organizations, parents, and teachers. This should be the case, because without it a good educational climate cannot be provided. However, in too many districts, the schools have become the scapegoat for relieving the many tensions and anxieties that exist today.

You have been fortunate in being able to retain your complete staff of full time teachers again this year. A good educational program, which is consistent from grade one to eight is only possible when teachers have worked together for a few years. It is going to become increasingly difficult for the small and medium size towns to hold its teachers, as many of the neighboring cities are not only paying much higher salaries, but are now finding it necessary to hire married teachers and to lower their educational requirements to fill vacancies on their staffs.

Mrs. Sherburne is doing a fine job in giving the youngsters a foundation for future interest and ability in the field of art. It must be remembered that it takes several years of such instruction before the actual results become too apparent. I am sure that many parents have already begun to notice a new interest in this field.

The abnormally large enrollment in the first grade has presented a very serious problem. The appointment of Mrs. Mary Mooney has proved to be a very happy solution to this problem. By working with a small group of these youngsters in the morning she is able to give them the attention that is so badly needed by children of this age in reading and arithmetic. It has been necessary for her to hold this class in the cafeteria. This has been somewhat of a handicap to the two school lunch workers, but through mutual cooperation and understanding between the teacher and workers the necessary adjustments have been much smoother than I at first thought they would be.

The census report would indicate that another large first grade enrollment can be expected next year. To cope with this situation it would seem to call for another full time

teacher to handle a combination first and second grade. This will mean an even greater problem for those who serve the noon meal, but I am confident that this can be solved.

Although it is difficult to predict the full effect of new families moving into town upon the school enrollment two years hence, it now looks as though there would be a normal first grade in September, 1954. If such is the case, it will give the school board time to analyze the school enrollment trends more accurately. The census report next fall should answer many questions as to the necessity of further expansion.

I would like to express my appreciation for the fine cooperation and support the school board has given me this past year. Being a comparatively new board, it has been necessary to devote more time in studying the many problems, but the decisions made have been sound educationally and financially.

Respectfully submitted,

HENRY J. HASTINGS,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

Pelham, N. H.

February 1, 1953

*To the Superintendent of Schools, the School Board and the
Citizens of the Town of Pelham:*

I herewith submit my annual report as School Nurse,
from September 1, 1951 to September 1, 1952:

Number of pupils examined (monthly)	207
Number of pupils with defective vision	11
Number of pupils with defective hearing	0
Number of pupils with defective speech	2
Number of pupils with enlarged tonsils	47
Number of pupils having measles	51
Number of pupils having mumps	1
Number of pupils having pediculosos	2
Number of pupils having impetigo	2
Number of pupils having influenza	92
Number of home visits	79
Number of school visits	458

During the month of February, two Dental Hygienists from the N. H. Dental Services, sponsored by the Pelham Grange, applied fluorine in three applications and cleaned the teeth of 193 children. They found 952 cavities in the permanent teeth and 549 cavities in the first teeth. Six of the children were found with perfect teeth.

In March, Mrs. Birchall and I applied the T. B. Patch Test to 63 children from the first, fifth, and eighth grades and found no reactors.

In March we had an epidemic of influenza which affected the lower grades and our school telephone was a tremendous help to me in contacting the parents for information concerning the children.

During March, April, and May, Mrs. Fahey, the state nurse, held her pre-school clinic where 40 children were vaccinated for small pox and 16 were given diphtheria, whooping cough, and tetanus shots in three doses and 5 were given the booster shots.

In June we held our "Get Acquainted Day" for the incoming first grade and 30 children attended and enjoyed meeting future classmates and their teacher.

Our lunch program is running smoothly and is very well patronized.

The past year has been a very busy one and I would like to thank Mr. Hastings, the School Board, the teachers, and all the parents for their cooperation and hope they will continue this in the future.

Respectfully submitted,

ANNA M. HORSKIN,
School Nurse.
